

Re: Presdale School Facility Development

Hi Nikki

Hope you are well

In addition to Charlotte's supporting letter from England Netball (attached), I would like to just add the following comment:

Particularly considering the current climate and outdoor netball is the predominant game this is a major contribution to the County to provide facility for netball to take place. Hertfordshire County Netball would look at making use of the facility to run Back To Netball and Walking Netball Sessions for Women 16+ years, Netball Youth Camps for juniors during holidays and supporting the growth of large clubs in the County and catering for training and matches for these players. Due to the facility being a school, all our sessions would need to run out of school hours and therefore floodlights will be essential.

I wish you all the best with the application for your funding and if there is anything else I can do please let me know.

Regards

Florence Jones
