Detailed Specification of Fletcher's Lea Internal Refurbishment Project

Toilets

- Update to modern specification on a like for like basis
- Possibility of reducing ladies stalls from 4 to 3....
- Replace the current stalls and white goods in line with the toilets in the main Ware Priory building
- Replace the appointments (soap dispensers, dryers etc) as per above.

Essential Sustainability Work

- The addition of hot water distribution taps in toilets, kitchen and bar to reduce all taps to 5.7 litres/minute. This will reduce HW demand and ASHP size plus meet ESG directives.
- The installation of a Hot Water Cylinder Heat Pump. Switch the direct electric hot water system to a hot water cylinder heat pump such as the Dimplex EDL or Daikin Altherma with SCOP min 2.7. This then provides renewable hot water. Short ductwork needed to external wall/roof.

Main Room

- To submit a design for a multi-purpose facility including items below
- Wall Spaces – add mirror in large space on the right hand side as you enter the room
- Provide choice of vinyl rendering for the storage / door panelling to match the bar area
- Replacement of curtains with black out curtains or blinds to suit the design element.

Reception

- Repaint or stylish vinyl covering or bar panelling – to match with main room storage doors (see above)
- Area Between Bar Corridor and Foyer
 - Replace shelf with something more durable
 - Box in area below
 - Splash backs for area above
 - Clean up sink

Kitchen

- Removal of excess equipment including safe and current storage units
- To be replaced with closed in cupboard storage
- Wall space needs redecorating and plastic cornering added to protect from scuffing
- Replacement of gas hob for electric one.

Bar

- New design and some functional improvements including:-
